PREFACE.

THE Philatelic Section of the Bibliotheca Lindesiana, of which this volume forms the catalogue, is a comparatively recent addition made by the present Earl of Crawford. It was inaugurated in the year 1901 by the purchase of the collection of philatelic literature formed by the late Mr. John Kerr Tiffany, a prominent lawyer of St. Louis, Missouri. This gentleman had for many years, previous to his death in March, 1897, been an indefatigable collector of every publication connected with the pursuit of stamp-collecting. For two decades—from 1870 to 1890—he was to all intents and purposes the only collector of this class of literature in either the United States or Great Britain, other philatelists of that period being content if they possessed a few of the more important journals and works. It was principally due to this fact that Mr. Tiffany was enabled to make his library so complete, as there was no demand for any except the standard publications, and he was able to acquire copies of the scarcest works for little or nothing, which would now, owing to the greatly increased competition, be most difficult to acquire at any cost.

Mr. Tiffany included in his collection all separate works, journals, retail and wholesale price-lists from the smallest to the largest, notices of dealers and societies, articles on stamp-collecting in non-philatelic magazines, works on postal history and music with philatelic or postal titles. In fact he made it his object to obtain every scrap of paper from a single leaf to the largest volume, which had any bearing whatever on philately and the Post Office in all languages and from every quarter of the globe. The strongest portions of his library consisted of the philatelic literature of the United States and Great Britain, both of which he had succeeded in making surprisingly complete. In the publications of the continent of Europe, as might be expected, he lacked a good many works, more particularly of those of Germany.

The collection was discontinued after Mr. Tiffany's death, and in June, 1901, the entire library just as he had left it was purchased, as already stated, by the Earl

of Crawford, and is now housed in his London residence in Cavendish Square. On the arrival of the library in England, Lord Crawford determined to continue it from the end of 1896, the period when it stopped, and to keep it up to date. Mr. Tiffany had adopted an uniform binding of half calf and the colour black for the journals and such of the separate works as required to be bound, and Lord Crawford decided to continue using the same colour, but has substituted half morocco in place of calf. Unfortunately the binding done in the United States is work of poor quality and several of the books have had to be rebound. Many of the early catalogues and works were also terribly mutilated and cut down and some had the wrappers omitted, but in most instances these have been replaced by more perfect copies with the original wrappers intact.

Since the acquisition of the Tiffany library the collection has been largely added to by numerous purchases from other collectors, by the circulation of "lists of wants," and by the purchase of current journals and works. The most important of these additions took place in 1907, when Lord Crawford acquired the entire collection made by the late Amtsrichter Heinrich Fraenkel of Berlin, which at that time was one of the largest and most complete of the philatelic libraries on the continent. From the last source a large number of lacunæ in the literature of all countries, but more especially in the department of German publications, was obtained. The rapid growth of the collection since the Tiffany library was bought can best be demonstrated in this way: Mr. Tiffany had started two series of volumes, one lettered "Miscellaneous Stamp Journals," the other "Miscellaneous Stamp Pamphlets," in which were bound up, respectively, journals of which only one or at the most a few numbers were issued, and small pamphlets. A large number of the volumes of the former set contain as many as, or more than, twenty different journals and there are often ten or more pamphlets to one volume of the latter. When the Tiffany library arrived in London the two sets numbered fifty-one and

twenty-one volumes, respectively; now they contain as many as one hundred and fifty-four and one hundred and twenty-nine volumes. The amalgamation of the Tiffany and Fraenkel libraries and the additions made from other sources too numerous to specify, constitute the philatelic section of the Bibliotheca Lindesiana pre-eminent among the collections of literature pertaining to stamp-collecting.

The only previous attempt to compile a catalogue of the philatelic literature of the world was that made by Mr. Tiffany, in the *Philatelic Library*, which was published as far back as the year 1874. A few separate hand-lists and a number of articles in philatelic journals have appeared since, but these only deal with branches of the subject. An annotated list of these bibliographies and essays is given in Appendix B to the present work and obviates any further reference to them here. Since the publication of Mr. Tiffany's catalogue in 1874, works and periodicals, devoted wholly or partly to philately, have made their appearance in an ever-increasing annual stream. The earliest philatelic work was only published in December, 1861, but probably no other pursuit of a collecting nature can show such a mass of literature for the first fifty years of its existence. The number of publications has of late years grown to such large proportions that collectors of this branch of literature now more than ever feel the want of a new bibliographical list that includes the productions of the philatelic press of every country. The present work is designed to fill this gap.

The catalogue is drawn up for the most part on the lines usually adopted for such works, but the introduction of a few special features has been thought advisable in dealing with a distinct class of literature such as this. A short description of the arrangement of the contents will, therefore, not be out of place and may prove useful to anyone consulting the lists.

The work is divided into two divisions, as the periodicals form such a numerous class that it was thought it would facilitate reference purposes if they were grouped by themselves. The first part of the catalogue consists of what may be considered "Separate Works," while the second part is confined to "Periodicals". An Appendix A is added giving a list of the philatelic journals arranged under the names of the countries in which they were published, in chronological sequence in each instance, and an Appendix B, already referred to, gives an annotated list of the principal sources of information for philatelic literature collectors.

The works listed in Part I. are arranged under the name of the author where this is known. Publishers of stamp catalogues and price lists are assumed to be the authors of such works whenever the actual author's name is not mentioned or is unknown. In the case of other works where the author's name does not appear and is unknown, they will be found catalogued under the first word of the title, ignoring, as is usual, the initial article, if any is present. The title of each work is followed by the place of publication, the name of the publisher and the date, but when no publisher's name is given, it is to be understood that it is the same as that of the author. In the

case of a work or journal, which is known to have been printed at a different place from that in which it was published, the names of both the town of publication and that where it was printed are given.

The publications of societies, clubs and exhibitions are arranged under the names of the cities or towns in which the associations were or are domiciled and the exhibitions were held. But when the annual meetings of bodies, such as the "American Philatelic Association" and the "Deutscher Philatelisten Tag," take place in different towns, their publications are given under the name of the societies. All music having a philatelic or postal title is listed under the heading "Music," followed by the names of the composers in alphabetical order. Catalogues of public auction sales of stamps are placed under the heading "Auction Catalogues" and are there subdivided under the names of the various promoters. The list of auction catalogues includes all those of Great Britain, all those of early times, and the more important sales of recent years held in the United States and other countries. Auction catalogues of stamps, even when priced, except of large and well-known collections, are of very meagre interest or use and the list has no pretensions to be exhaustive in the case of sales other than those of Great Britain. Similarly, in regard to dealers' price lists and price catalogues, it is obvious to every philatelist that it would be quite impossible to compile an exhaustive list of these, nor would any such list be of actual utility. The course adopted has been to include all the early published lists and catalogues contained in the collection, all those that deal with the stamps of any particular country or are drawn up on specialist lines, and, of recent years, those published by the chief stamp-dealers throughout the world.

Part I. contains under the name of each country a subject index of all the separately published works in the collection that deal specially with the stamps of that country. It is hoped that this index will be found useful by students who desire to consult the special works that have already been published upon the stamps of any particular country or who may be thinking of writing on the same topic themselves.

In Part II. the sub-title of a journal is only given when this appears without variation on the whole of the numbers issued. When the place of publication or name of the publisher is changed during the life of a journal, the abbreviation "*etc.*" is added after the original place or name and full particulars of the alteration are given in the note attached to the journal.

The height of each item is given in inches and the abbreviations "*Mis. St. Pamph.*" or "*Mis. St. Jour.*" after an entry signifies that the work is bound up in the series of volumes labelled "Miscellaneous Stamp Pamphlets" or "Miscellaneous Stamp Journals," whichever it may be.

Part I. contains all separate works published to the end of 1908, except in the case of auction catalogues, the list of which is only completed to the end of 1906. Part II. includes all periodicals issued to the end of 1906, but those journals which were in progress at that period

and have since become defunct, are completed to the end of their careers.

The compilation of the chronological lists of philatelic journals, given in Appendix A, has presented a good deal of difficulty in determining which merited inclusion and which did not. A reference to Part II. of the catalogue shows that there is a large class of journals that may be called semi-philatelic, but in some instances these contain more philatelic matter than others that have a purely philatelic title. The rule that has been followed is to include all journals with philatelic titles, all those that have any connexion with philately designated in the sub-titles and such others in which the contents are solely or principally philatelic. The Appendix B includes particulars of all the early bibliographical notices of a philatelic nature and such later works and articles as I have personally found most useful in my researches.

Lastly I have the pleasurable duty of acknowledging with grateful thanks the assistance I have received in the

compilation of the catalogue from the following gentlemen :—

Dr. Emilio Diena (Rome), Dr. Otto Rommel (Leipzig), Messrs. P. J. Anderson (Aberdeen), F. A. Bellamy (Oxford), H. Clark (Angmering), J. A. Cook (Waterloo, Iowa), A. Dethier (Brussels), H. E. Deats (Flemington, New Jersey), Abel Fontaine (Buenos Ayres), W. V. Morten (Leeds), C. A. Nast (Denver, Colorado), A. J. Parés (Toulon), F. J. Peplow (Dulwich), E. B. Power (New York), W. R. Ricketts (Forty Fort, Pennsylvania), B. T. K. Smith (London), V. Suppantsehsch (Graz) and the late Amtsrichter H. Fraenkel (Berlin). Without their co-operation it would have been impossible for me to have included in the catalogue descriptions of the works and journals of which there are no copies in the collection.

NOTE TO THE PRESENT EDITION.

THE Council of the Philatelic Literature Society have requested me to append to this edition of the *Catalogue of the Philatelic Library of the Earl of Crawford, K.T.* a short note of the circumstances of its publication by the Society.

At a meeting of the Society held on the 16th July, 1909, the President, Mr. E. D. Bacon, intimated that Lord Crawford had empowered him to offer to the Society the rights and facilities to publish a special edition of the Catalogue, after the original edition, intended for private distribution only, had been printed, permitting the Society to make any arrangements with the printers of the work which might be thought desirable. The Council gratefully accepted this generous offer, and when, in December, 1910, the progress of the work was sufficiently advanced to give full consideration to the matter,

they decided to issue an edition of three hundred copies, one hundred of which should be reserved for members of the Society.

The Council of the Society, in issuing the work, desire to record their deep appreciation of the magnanimity of Lord Crawford in giving to the Society the opportunity of publishing a book of inestimable value to philately, thereby rendering generally available the results of many years' labour and research, which, but for his interest and munificence, would probably have never been published.

For the COUNCIL of
THE PHILATELIC LITERATURE SOCIETY,
F. J. PELOW,
Hon. Secretary.

* There is a coloured paper wrapper to each catalogue, with the exception of that of the first sale by Private Treaty, and many of the catalogues have the prices added in manuscript or in separate lists. The two Private Treaty sales and sales 5-13 measure 8½ inches and the remainder about 9½ inches. Up to sale 200 each day is reckoned as a separate sale. Sales 151, 152 and 153 were held on March 3 and 4, 1903, so that the sales of March 17 and 18 following are numbered 153 and 154, and so onwards to sale 200 of April 19 and 20, 1904. The wrapper of the catalogue of this last sale bears "200th and 201st sales," but the catalogue of the following sale of May 3 and 4, 1904, bears "201st sale," and the numbering is then continued with each catalogue counted as one sale, whether the sale lasted one, two or more days. Sales nos. 9 and 10 were held at Birmingham. The catalogue of the 241st sale has in error "240th sale" on page 1, but the numbering on the wrapper is correct.

POTIQUET (ALFRED) Catalogue des timbres-poste. Créés dans les divers états du globe.

Paris, Eugène Lacroix [et] E. de Laplante, 1862.

12°. 7 in. 43 pp. + (1) p. Coloured paper wrapper with an unused 1c French stamp of 1860 attached to the front side.

. The author's full name does not appear, but the "Introduction" is signed "Alfred P." Although bearing the date "1862," a note by the publisher of the second edition affixed to the paper wrapper states that the first edition appeared on December 21, 1861. This was, therefore, the first catalogue of stamps ever published. See also remarks by J. B. Moens in the second edition of his "Manuel du Collectionneur de timbres-poste," Bruxelles, 1862. Two varieties of the paper wrapper are found: one with "Prix: 2 Fr. 00 cent," the other with "Prix: 1 Fr. 25 cent." Facsimiles of the coloured paper wrapper with "Prix: 2 Fr. 00 cent" and of the first eight pages of the catalogue are given in P. Mahé's "Les marchands de timbres-poste d'autrefois et leurs catalogues," Amiens, 1908. The copy in the library wants pages 35-38, and the wrapper with "Prix 2 Fr. 00 cent" is also wanting. There is a perfect copy of this edition in the British Museum library, catalogued under P. (Alfred) and with the press mark 8245.a. 68. (9).

TRAMBURG'S ERBEN. Uebersicht aller bekannten, von 1849 bis 1862 emittirten Franco-Marken, welche in grösserer Anzahl vorrätig und unter der Ziffer "Ab 1863" bei T's E. *Hamburg, [1863].*

4°. 9 in. 8 pp. Coloured paper wrapper.

* * The date "1849" is an error for "1840," as stamps are included in the list from the latter date. The catalogue has columns ruled off for the insertion of prices, which, however, were not always added. The work is a reprint, in different form, of Zschiesche and Köder's list of 1862, with a few additions, and the old error in the date "1849" for "1840" is repeated. An illustration of the first page of the work is given in the "Journal of the Philatelic Literature Society" of January, 1900. Wanting.

Vol. XII. Jan. 20-Dec. 20, 1878. Nos. 145-156.

*. Vols. I.-VII. are quarto and vols. VIII.-XII. are octavo. The numbers of vol. I. differ from the "special edition" of this volume in being printed on white paper and also by the fact that no. 1 is a reprint with a note to this effect at the foot of page 8, the two new paragraphs replacing a description of some "Canadian Essays" in the original special edition on yellow paper. The reprint was made in May, 1868, and there is no original no. 1 on white paper. Nos. 9 and 10, 11 and 12, 87 and 88 and 95 and 96 were severally published together under the respective dates "November, 1868," "December, 1868," "August 1 & 15, 1873" and "December 1 & 15, 1873". Each number excepting no. 1 and nos. 73-96 has a paper wrapper, and each volume, excepting vol. VI., has a title-page and an index. Vols. II.-XII. were published by J. W. Scott and Co. The numbers of vol. VI. were issued weekly and those of vol. VII. fortnightly. There is an extra number consisting of two pages called "No. 27½," dated "March 25, 1870," and a supplement of two pages to no. 57, which is only found in the American edition of this number. Vol. III. has a frontispiece with coloured illustrations of the United States stamps of 1870. Vol. V. was published at 46 Leadenhall Street, London, E.C., as well as in New York. The wrappers used for the former edition had the subscription price given in English money, many of the advertisements upon them differ from those of the American edition and there are four pages of additional advertisements in each of the nos. 50, 55 and 57, which are not found in the latter edition. The wrappers and advertisements of the English edition were printed by Fardon and Son, London, but the contents were printed in New York and correspond exactly with the New York edition. Nos. 52-60 are stated on the wrappers of both editions to be edited by Alfred Turner, but this is believed to have been a pseudonym for J. W. Scott. On the wrappers of nos. 55-60 of both editions the title reads "The American journal of philately and the stamp collectors' journal"; no doubt referring to an amalgamation with the "Stamp collectors' journal and philatelic opinion" of London. Page 24 of no. 3 has "April 1" in error for "May 1," page 70 of nos. 9 and 10 has "October 1" in error for "November 1," page 84 of nos. 11 and 12 has "November 1" in error for "December 1," page 116 of no. 22 has "Sept. 30" in error for "Oct. 20," pages 44 and 50 of no. 28 have "Mar. 20" in error for "April 20," page 89 of no. 32 has "1670" in error for "1870," pages 9, 11 and 18 of no. 37 have "1870" in error for "1871," page 29 of no. 39 has "1870" in error for "1871," page 42 of no. 40 in some copies, has "April" in error for "April 20," page 44 of no. 40, in some copies, has "April 6" in error for "April 20," pages 117 and 130 of no. 46 in some copies, are printed inverted, the wrapper of no. 99 has in error "98," pages 55, 56, 63 and 64 of no. 112 have "March 20" in error for "April 20," page 60 of no. 124 has "March 20" in error for "April 20," page 106 of no. 137 has "June 30" in error for "July 20," and pages 5 and 7 of no. 145 have "1876" in error for "1878". There is a supplement to no. 45 consisting of a catalogue (8 pp.) of an auction sale of stamps to be held by Geo. A. Leavitt and Co., on October 9th, 1871, the pages of which bear the heading "Supplement—American journal of philately". This catalogue is bound up in the volume lettered: "Stamp auctions 1". Other catalogues of auction sales of stamps by the same firm were presented with nos. 131, 143, 146, 148 and 153 and the pages of each of these are headed "The American journal of philately."

 1860, June 23 (2, ix., 482). As this query contains the earliest reference in print to Stamp Collecting proper, it is given in *extenso*:—

"POSTAGE STAMPS."—A boy in my form one day showed me a collection of from 300 to 400 different postage stamps, English and foreign, and at the same time stated that Sir Rowland Hill told him that at that time there might be about 500 varieties on the whole. This seems a cheap, instructive, and portable museum for young persons to arrange; and yet I have seen no notices of catalogues or specimens for sale, such as there are of coins, eggs, prints, plants, etc., and no articles in periodicals. A cheap facsimile catalogue, with nothing but names of respective states, periods of use, value, etc., would meet with attention. If there be a London shop where stamps or lists of them could be procured, its address would be acceptable to me, and to a score young friends."

"S. F. CRESWELL."

* * No. 9, which is without year of publication, is octavo and the other numbers are folio. No. 13 is wrongly numbered "No. 14" and nos. 3, 5, 6, 8 and 10 are called double numbers. No. 10 is printed on the back of a large poster with the heading "Petitions for a uniform penny postage lie here for signatures" and nos. 4 and 12 contain illustrations of essays for stamps. There are two copies of no. 1, one dated "March 14, 1838" and the other "March, 1838". The latter has the words "Specimen of" above the title and the contents of pages 3 and 4 are entirely different in the two editions. *A second file of the thirteen numbers is bound up in volume lettered "Papers relating to Uniform Penny Postage, 1838-39" (nos. 5-17).*

The editor of the "Post circular," Sir Henry Cole, K.C.B., left a collection of papers and essays of stamps connected with the introduction of uniform penny postage to the Victoria and Albert Museum. This collection contains two files of the "Post circular," one of which contains the following additional numbers: a "second edition" of no. 4 dated "April 5, 1838," part of the contents of which differ from the first edition of that number; two editions of no. 7 differing in the make up of the front page, one of which is perhaps an unissued proof copy; and what is evidently a proof copy of no. 12 with the date "April 29, 1839". This file also contains three proof copies of a no. 15, with two pages each and the date "Sept. 27, 1839," the contents of which are differently arranged in each case, a further copy of no. 15 differing in the make up from the other three, but consisting of two pages and dated "Oct. 11, 1839," and a copy of no. 16, which consists of four pages and has the date "Nov. 20, 1839". All the known collections of this paper only contain thirteen numbers and it seems, therefore, doubtful whether the nos. 15 and 16 were ever published or circulated. Mr. W. V. Morten has a copy of the second edition of no. 4 in his collection.

POST MAGAZINE. The Post magazine: (Published every Saturday). Combining 1st. A magazine of useful information. 2nd. A post letter. 3rd. A sheet of letter paper. *London, Wm. Pateman, 1840.*

8°. 10½ in.

* * Each number consists of a sheet of paper for writing a letter upon and one to three leaves of printed matter of a non-philatelic

character. The back of the last leaf of the early numbers contains a rectangular space for the address within an ornamental border with an adhesive one penny, black, Great Britain stamp attached in the right upper corner. The space for the address was so placed that the whole contents of the number could be folded up and sent through the post in the form of a letter-sheet. No. 1 is dated "July 25, 1840". In 1841 the journal was issued without a penny stamp attached, at a half-penny a number and this charge was later on raised to one penny. The last number known is no. 153, dated "October 28, 1843". As specimens of this interesting postal experiment the library contains two different issues without number or date, which are probably imperfect; no. 14, dated "October 24, 1840" and no. 20, dated "December 5, 1840". The two last have the words "Guaranteed weekly supply—Eight thousand," below the title "Post Magazine".

No. 19 is wrongly numbered "No. 18" and dated "September 15, 1892," in place of October 15, 1892, but the wrapper has the correct number and date. No. 37 has on the wrapper "Vol. III," in place of vol. IV. There is a supplement of two pages, printed on coloured paper, to no. 15. *. Edited by L. Hancianu. Vol. 1. is folio and the remaining volumes are octavo. There are two numbers for December, 1863 — "15 Décembre" and "31 Décembre". There is a title-page and a list of contents to each volume with the exception of vol. 1. The last numbers of the year 1900 were issued in advance; number 456, dated "Décembre" being published early in the previous August. There is a "Prix-courant" supplement to nos. 13-24 of LXXXIV. + (2) pages; to nos. 25-36 of LXXXIV. pages; to nos. 37-47 of 48 pages; and to nos. 49-60 of 56 pages; a supplement of (12) pages of illustrations of caricatures, etc., of the Mulrady envelope to no 70; a "prix-courant" of 24 pages to the seventeenth year; and two supplements to the twenty-seventh year, the first: a price list of "Timbres-Poste Ruraux de Russie" 4 pages; the other: a price list of "Timbres de Belgique," etc., 8 pages. "Le Timbre fiscal" was given as a supplement to nos. 193-408 and in January, 1897, it was amalgamated with the journal under the title "Le Timbre-poste et le Timbre-fiscal," and was continued thus to the last number of December, 1900. The number for June, 1873, is wrongly numbered "125" in place of "126," no. 260 is dated "Juillet" in place of "Août," no. 382 "Septembre" instead of "Octobre," no. 408 "Novembre" in place of "Décembre" and no. 449 "Avril" instead of "Mai". Nos. 271 and 272 and nos. 450 and 451 were severally published together under the respective dates "1885, Juillet-Août" and "Juin et Juillet 1900". The twenty-fifth year has a "Numéro Jubilaire" of xxxv. pages. There are paper wrappers to nos. 284-287, to the "Numéro Jubilaire," and to nos. 371-379. No. 340 and nos. 343-348 are found with the first page of each number headed "Supplément à la Revue Philatélique Suisse". These numbers were so printed for circulation with nos. 4-9 of the "Revue Philatélique Suisse" for the year 1891. Nos. 1 and 2 were reprinted by Ve J. Van Buggenhoudt (sic), in 1903, and not by Beauvais as M. Ph. de Bosredon says in his "Bibliographie Timbrologique de la France et de la Belgique," Bruxelles, 1878. Nos. 13 and 14 were reprinted by H. Thiry-Van Buggenhoudt (sic) in 1869 and nos. 15 and 16 by A. Van Buggenhoudt in 1875, and the entire first volume was re-arranged and reprinted with a title-page and a list of contents in octavo size in 1867. The reprints of nos. 1 and 2 and 13-16 differ from the original numbers in the type and the arrangement of some of the articles and certain of the advertisements are entirely different. A copy of the prospectus issued in January, 1897, is bound up in front of no. 409. This was the first philatelic journal published in Belgium.

— [Special edition printed on various coloured papers.]

*. This edition consists of 36 vols. viz.: the years 1866-1900 inclusive and the reprinted volume of the year 1863. The volumes for the years 1864 and 1865 were not printed on coloured paper. APPENDIX B.

THE PRINCIPAL SOURCES OF INFORMATION FOR PHILATELIC LITERATURE COLLECTORS.

(This list was originally published in the "Journal of the Philatelic Literature Society" of January and April, 1908, but has since been revised and augmented.)

I.—SEPARATE WORKS AND ARTICLES.

ALDRICH (E. R.)—See AMERICAN PHILATELIC ASSOCIATION.

AMERICAN PHILATELIC ASSOCIATION—Annual reports of the committee on philatelic literature. In *The American Philatelist and Year Book of the American Philatelic Association*, Vols. XIII.-XXII. 1899-1908.

8°, 10 in.

. A good deal of information is contained in these reports about new publications, especially of journals and works issued in the United States and Canada. The second report, that of 1900, was republished in separate form, and this report contains a valuable list of the philatelic periodicals of Switzerland compiled by William Chenevard, of Geneva. The list has the titles arranged alphabetically and the names of the publishers, place, date and numbers issued are given in each instance. The report of 1903 contains a "Bibliography of Scandinavian Papers". This list, which was compiled by Dr. Otto Rommel, first appeared in *Nordisk Filatelistisk Tidsskrift* for February, 1903, and was afterwards reproduced in condensed form by E. R. Aldrich in the number of *The Philatelic World*, Minneapolis, Minn., for April 15, 1903. A note to the report in *The American Philatelist* states that the list, as there presented, "has been quite fully revised and corrected". The list is divided under the headings: "Denmark—Norway—Sweden—Finland," the titles of the journals are in each instance arranged chronologically, and particulars are given in each case of the name of the publisher and the place, the date and the number of parts issued.

ANDERSON (F. J.)—Notes on early English philatelic literature. In *The Philatelic Record*, London, Vol. VII., Nos. 76, 77, 79, 80, May, June, August, September, 1885; Vol. VIII., No. 85, February, 1886.

8°, 8½ in.

. These papers trace out the history of the commencement of English philatelic notices and literature, and are further particularly valuable as they contain an account of stamp articles in the English non-philatelic magazines of 1860-1864, in addition to a description of the purely philatelic works published during those years.

— Bibliography of philately. In *Notes and Queries*, London. Eighth series, No. 167, March 9, 1895.

4°, 8½ in.

. A carefully compiled and useful list of works and articles in philatelic journals dealing with philatelic bibliography to the end of 1894.

8°, 9 in.

. The title of the article in the supplement reads: "English and Foreign Philatelic Literature". The list in the May number was republished in *The Philatelist*, London and Brighton, Vol. I., No. 8, July 1, 1867, under the title "English Philatelic Literature," and the list in the June supplement was embodied by the author in two articles in *The Philatelist*, Vol. I., Nos. 11 and 12, October 1, November 1, 1867, referred to below.

* * * This work was reprinted from the *Bulletin de la Société Française de Timbrologie*, Nos. 4-10, July, 1876-January, 1878, and forms the second volume of the *Bibliothèque Timbrologique* of the Société. The publications of each country are kept separate, and these two divisions are subdivided under eight headings: "I. Catalogues. II. Publications spéciales. III. Journaux spéciaux. IV. Albums. V. Articles insérés dans divers ouvrages ou dans divers journaux. VI. Prix Courants, Annonces, Prospectus. VII. Dessins, Caricatures, Vignettes, Photographies. VIII. * * * The arrangement is alphabetical, the monographs and catalogues being given under the names of the authors and the journals coming in under the first word of each title, without, as usual, taking account of the article "The" etc., when present. Ruthven, Iowa, 1895.

8°. 8½ in. 29 pp. + (1) p. Coloured paper wrapper.

* * This and the following lists by the same author are amongst the most useful works of reference on philatelic journals published in English, as they are so compiled that the collector can cross off each individual part as he obtains it, and sees at once exactly what he has and what he has not got. The lists are all arranged on the same principle. *i.e.* the titles of the journals are grouped under their proper letters of the alphabet, but in each case in chronological order.

— Supplement to the comprehensive check list of philatelic papers and magazines, consisting of two parts. The article of Herr König was reprinted in *Der Philatelist*, Dresden, Vol. XXVI., November 1905, and also in the *Deutsche Briefmarken-Zeitung*, Leipzig, Vol. XVI. November and December, 1905. The article gives an excellent review of philatelic literature describing the various works published on colours, essays, reprints, forgeries, watermarks, fiscal and local stamps; an account of the early handbooks and catalogues, and works on postcards and monographs on stamp issuing countries.

5°. 8½ in.

* * The works are arranged under the name of the author, or under that of the publisher when no author's name appears, in alphabetical order without regard to the language or country of origin. This is incontestably the simplest and best method for reference purposes, but the usefulness of the catalogue is impaired by its being broken up into no less than five divisions, under the headings: "Première Période (1861-1900)—Supplément Omissions—Deuxième Période (1901-1908)—Supplément et Omissions (1861-1900)—Supplément et Omissions (1901-1908)."

TIFFANY (J. K.)—The Philatelic library. A catalogue of stamp publications. . . .

St. Louis, Mo., Cambridge, Mass., [printed], 1874.

4°. 10½ in. vi. + (4) + 110 + (2) pp. Coloured paper wrapper.

* * * The edition was limited to one hundred and fifty numbered copies. This was the first published bibliography of philatelic literature in a separate form. The work is divided into three parts: i. Philatelic journals and works. ii. Price-lists, circulars, etc. iii. Stamp articles in non-philatelic magazines, works on the post office, etc. Part i. is sub-divided into eight divisions under the countries: "American—Danish—Dutch—English—French—German—Italian—Spanish". Part ii. includes nine countries: the first eight the same as for Part i., and the addition of "Russian," and Part iii. has eight headings: "Articles on stamp collecting—History of postage stamps—History of post office reform—History of the post office—Postal periodicals—Postage stamp games—Postage stamp music—Postage stamp photographs". The usefulness of the work is somewhat impaired by these numerous divisions, by the absence of cross-references and by the insertion of the journals under the name of the publisher instead of under the title. Notwithstanding these defects the work contains much information as regards details of the early publications that is to be found nowhere else, and it remains to this day one of the most valuable sources of information for the philatelic literature collector.
